

Dry Type Transformers

OLSUN ELECTRICS

The Trusted Choice

Perhaps the most trusted name in custom dry type transformers, Olsun has been designing and manufacturing solutions for over four decades.

While many transformer companies have converted to strictly stock items, Olsun has remained the first choice for the most sophisticated electrical needs.

With a long history of bringing very intricate designs to life, Olsun remains a brand of craftsmanship - applying the best materials and the best methods.

Olsun is still family run and still employing individual craftsmen and women to make custom dry type transformers in their entirety.

Why Olsun?

- Superior Reliability
- Hand Crafted Quality
- Sophisticated Design
- Functional Aesthetics
- Maximum Satisfaction

Applications

The Smart Choice

All of our products are built to nationally and internationally recognized standards - including **NEMA/ANSI** and **IEEE** design and test standards, **IEC** standards, **ABS** and **DNV**. We offer products bearing **UL/cUL** marks.

Capabilities

LOW VOLTAGE

General Purpose 600V Class

Single Phase to 1250kVA
Three Phase to 2500kVA
K Factor to 2500kVA

Silica Resin Encapsulated for Hazardous Locations

Single Phase to 250kVA
Three Phase to 300kVA
Voltage Mix to 5kV

MEDIUM VOLTAGE

General Purpose

Single Phase to 500kVA
Three Phase to 750kVA

Unit Substation or Cast Coil

Single Phase to 1000kVA
Three Phase to 5000kVA

Triplex Designs

Three Phase to 3000kVA

MORE PRODUCTS

Drive Isolation

600 Volt Class to 1100kVA
Medium Volt to 5000kVA

Pad Mounted Designs

Single Phase to 1000kVA
Three Phase to 5000kVA

Load Interrupter Switches

5kV, 15kV or 34.5kV
